I believe that it has been and still is wrong for the U. S. Dept. of Justice to have any court cases against Microsoft. Microsoft has done nothing wrong. ***And the U. S. Dept. of Justice should never have brought a suit against Microsoft in the first place.*** All of this litigation is a waste of my tax dollars. The U. S. Dept. of Justice should use those dollars to fight terrorists and illegal immigration. Thank you. Ted 01-02-02
